

HTML code can not be put directly into Rules.

Use online HTMLEncode tools to encode the HTML string as below: (Note: On Google, search "HTMLEncode Online", tools are widely available)

```
<b>BOLD</b>
<b class="red">RED</b>
<br>
<a href="https://www.irs.gov/Businesses/Small-Businesses-&Self-Employed/Declaring-Bankruptcy" target="_blank">IRS Bankruptcy Info</a>
```

" If the client has ever filed for bankruptcy, in the Details section on page 5B, please provide the date filed, date discharged, what your payment schedule is and what chapter you filed. Also, if the client has ever had any monetary judgments entered against them, or had any repossession, foreclosures, collections, bad debts, lawsuits, tax liens, or legal actions, then please explain in the Details section on page 5B of this application. Please select Yes to acknowledge.

After encoding, the above HTML code becomes:

```
&lt;b&gt;BOLD&lt;/b&gt; &lt;b class=red&gt;RED&lt;/b&gt;&lt;br&gt; &lt;a
href=https://www.irs.gov/Businesses/Small-Businesses-&Self-Employed/Declaring-Bankruptcy
target=_blank&gt;IRS Bankruptcy Info&lt;/a&gt;
```

Put this in "Rules"

```
<if>
