# iConnect 269754 Design Approach – Display scroll bar on Manage Optional Forms page

## Project Overview

This enhancement is to display a scroll bar on the Manage Optional Forms screen to make it easier for the user to scroll through the page when there are multiple forms listed. This enhancement will impact both MVC and Reach sides of the code base.

### Impact:

- FL App: Manage Option Forms on the Other Actions menu for an activity.

## 1 Display scroll bar on Manage Optional Form page

Scroll bar will be added to the "Manage Optional Forms" page that loads from the "Other Actions" menu in an activity. This scroll bar will appear when the number of forms on the page gets listed beyond the length of the page to make it easier for users to scroll through all the forms.
