iConnect 258083 Design Approach – Disable Copying an Application for Console App

Project Overview

This base enhancement will remove "Copy" icon for checked-out applications from both Windows and iPad console apps. From the console app, users will not make a copy of the applications.

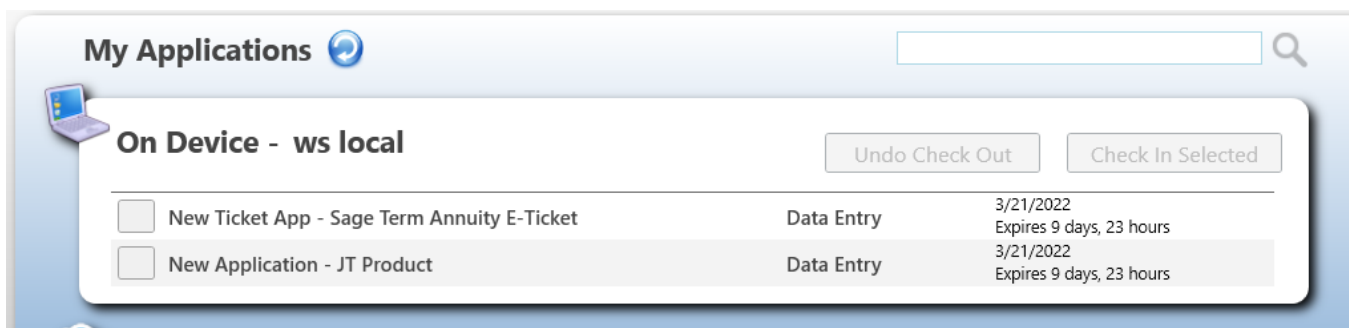

Impact:

- Console – The Copy Icon on the Console will be hidden at all times. This change will impact both Windows and iPad Console e-Apps.

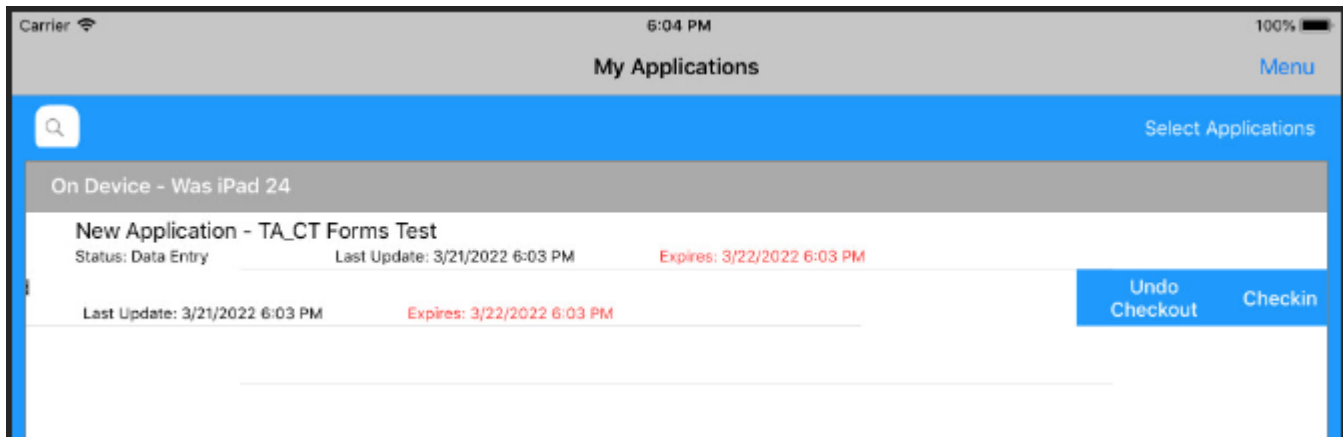

1 Disable Copy Icon in the Console App

We will need to remove the "Copy" icon for checked-out applications on the console. This will need to be completed for both the Windows and iOS platforms.

The Copy icon will not be visible when in console, so users will not be able to make any copies of their applications.

Additionally, from the iPad console the "Copy" option will be removed for the checked-out application.

Acceptance Criteria

- On windows console, "Copy" icon for the checked-out application is disabled.
- On windows console, user cannot create a copy of a checked-out application.
- On iPad console, "Copy" option for the checked-out application is not available.
- On iPad console, user cannot Copy Application.
